FIRE **BROS.** *a note from the farm...*

“We are a Seattle-born cannabis company built from the ground up by a group of friends who met back in middle school. What started in a basement 20 years ago has now evolved into a full-scale operation cultivating literal fields of indoor FIRE—always owner-operated, always hands-on. We’ve bootstrapped this business every step of the way, and we’re proud to keep it rooted right here in the city that raised us.

SINCE 2005

Holy shit it's been 20 years?

Everything we make is done in-house: we grow it, extract it, roll it, and package it ourselves—no white labeling, no shortcuts. That level of control means we know exactly what’s going into every jar, joint, and vape cart. It also means our standards are high—like, soooo high bro —and we never cut corners when it comes to quality.

At the core of Fire Bros. is a team culture built on four values:

- Continuous Improvement.**
- Attention to Detail.**
- Get Shit Done.**
- Good Vibes Only.**

**Whether it’s dialing in a new strain or building a better workplace, we’re always pushing for what’s next. Because at Fire Bros., we believe one thing above all:
YOU CAN ALWAYS GET HIGHER™”**
