# A NOTE FROM THE FARM...

“Vera Terra means “true earth,” and our VT seal is how we show, despite prohibition of certifying our products as “USDA Organic,” our commitment to bringing you the highest quality offerings, truly from the earth. We believe in truth and transparency. We are here to heal, restore, rejuvenate, and create enjoyment; while freeing you from the worry of harmful toxins or chemicals. All applied nutrients and pest deterrants have been approved in accordance with the National Organic Program’s National List of Allowed and Prohibited Substances. We spend our time researching how to grow and process cannabis in as fully conscious of a manner as we are able, so you can relax and focus on enjoying the fruits of our labor.”

“We are interested in what it means to be a successful business independent of profit motivation. We are creating a space where every day, and every choice, is not about acquiring profits for an ownership class. We make choices that are the greatest benefit to the quality and healthfulness of our end products. We are creating a space for people to be a part of society without being exploited. Exploitation occurs when few make vast profits out of the work of the many. We believe in normalization of cannabis through education and experience. We use our platform to inform our consumers about our products and practices with transparency to empower them to make educated decisions. We believe in demystification of cannabis by insisting on clarity, truth, and fact-based rhetoric when we speak about our products. We refuse to participate in manipulative advertising to strip the consumer of their honest decision-making power in order to capture their business. We hope you choose our products based on an honest understanding of what they are and how they are created. We believe in the power of the legal cannabis industry to set an example of how to exist as conscious, awake, and caring humans.” -Ravengrass Farm
