SPECIAL K GLASS

NOTES FROM THE ARTISANS...

“The Bongfather”

Aside from our elite customer support, what sets us apart is the sheer artistry that goes into every piece we create. The founder and head artist of Special K Glass, is known in the industry as "The Bongfather". Signing and dating each piece himself, Kris Uhlhorn has created every signature design and color combination that has graced our bongs and pipes. All of our hand-blown glass bongs are born uniquely. We combine traditional glassblowing techniques with our innovative process. While our water pipes excel in the artistic realm, we are equally dedicated to the functionality of our products. Our bongs and pipes are designed to deliver a smooth, enjoyable smoking experience. Whether you're a seasoned collector or a newcomer to the world of soft glass bongs, you'll find that Special K Glass offers a blend of style and function that is second to none.

Recycled Glass

We love our planet as much as we love our glass. Special K Glass Advocates for responsible consumption habits and promotes the use of green alternatives. Our 99% recycled glass bongs not only deliver a premium smoking experience but also encourage conscious consumer choices. Because we prioritize environmental well-being by melting post industrial recycled material and turning it into smokable works of art, by selecting Special K Glass, you're choosing to be part of a movement that works toward a more sustainable future.
